

THE WHITLEY, A LUXURY COLLECTION HOTEL, ATLANTA BUCKHEAD RENOVATION PROJECTED TIMELINE

Beginning this fall, The Whitley will undergo an extensive renovation to include our lobby and 507 guest rooms and suites. The transformation starts with a lobby remodel on October 25, 2018. Guests may experience an increase in noise volume and disruption in the public lobby through November 8, 2018.

During the renovation, the hotel entrance and valet parking will temporarily transfer to the hotel's side entrance, facing Peachtree Road across from Lenox Square Mall. Partitions installed provide a protective sound barrier allowing business to continue undisturbed, concealing renovations until the lobby is fully revealed in January.

Guest room and suite updates begin in early November. To avoid disruption to room blocks and in-house guests, room floors will be removed from service in groups of three, until each of our 22 floors is complete. Due to high traffic periods, the renovation will pause for two weeks surrounding Super Bowl LIII on February 3, 2019. The Spa will receive enhancements in March.

Throughout the entirety of the project, Trade Root Restaurant & Lounge, fitness facilities, and all meeting space will remain open and available for use. Rest assured, we've made every effort to ensure a seamless remodel with minimal impact to the guest experience. Please note projected dates are subject to change.

In the spring of 2019, the multimillion-dollar transformation will unveil graceful, nature-inspired touches reflecting the progressive landscape of our chic, urban wonderland. Steeped in authentic Southern charm, our new design celebrates Buckhead's original purpose as a gathering place, offering a front porch feel where guests and locals can meet, share knowledge, socialize and seek respite from the city. What will remain the same, is our genuine hospitality and anticipatory service at every turn.

With a nod to our past and a toast to our future, we hope you'll join us in our excitement as we create captivating moments bringing the Whitley story to life. Stay tuned for more news and updates, and get ready to experience new discoveries.
